Forecast for Monday 01 Jul 2024

Weather: Dry with clear spells during the early hours, before turning increasingly cloudy from the west by dawn. Outbreaks of showery rain, locally heavy, will move eastwards during the morning, and generally clearing by midday. Becoming drier and brighter, with some brief sunnier spells developing in the afternoon. Turning cloudy from the west by evening, with outbreaks of patchy light rain and drizzle at times.

Chance of cloud-free hill tops above 600m: 30% between 0600 and midday and again during the evening. Generally 60% during the afternoon.

Low cloud and visibility: Cloud base lowering to 500m at times throughout the morning, especially in any rain, but generally lifting above the summits by midday. Cloud bases then lowering again to around 500m after 1700 in any rain and drizzle. Visibility will be poor at times, especially in low cloud, rain and drizzle. Otherwise, generally good or very good visibility.

Meteorologist's View

Moderate to high levels of UV are expected during any bright or sunny spells. Therefore it is advisable to put on sun cream if spending any length of time walking or hiking on the hills.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sat 29 Jun 2024	0.6mm	0.6mm	0.6mm

Forecast for Tuesday 02 Jul 2024

Weather: A dry start with clear spells, leading to a fairly bright morning with spells of sunshine. The odd shower possible during the middle of the day before turning dry again by evening.

Maximum wind: Northwesterly 10-15 mph with gusts 20-25 mph

Chance of cloud-free hill tops above 600m: 70%

Low cloud and visibility: Cloud bases may lower towards the summit tops during any showers during the middle of the day, otherwise cloud bases will remain above the summits. Visibilities will generally be good or very good, potentially falling to moderate during any showers.

Temperature: **Valleys:** Plus 11 Celsius, rising to Plus 17 Celsius
At 600m: Plus 7 Celsius, rising to Plus 10 Celsius.
Freezing level: Above the summits
